Subject: Final Bethpage Cancer Evaluation Report
Attachments: Bethpage study final.pdf

Attached is a pdf of the final Bethpage Cancer Evaluation Report. The report was posted to the DOH web site late this morning at:

<http://www.health.ny.gov/environmental/investigations/bethpage/>

Answers to expected questions were developed, and will be posted on the DOH web site at some point this afternoon (or tomorrow). I expect they will be at the same link.

Information on the upcoming meeting that we will have to present the report to the public will also be included in the Q&A's. I know that the date for the meeting is February 13th, I believe the start time will be 7:30. The meeting will either be at the Bethpage High School, or one of the Bethpage Middle Schools. I think this will be finalized before the Q&As are posted.

Let me know if you have any questions.
